

## **Women's Support Groups**

They stand on picket lines  
with wives from other countries

they stand in Welfare Halls  
selling rags not fit for jumble,

they stand at universities  
they stand behind a mic,

they stand in police stations,  
tube stations, the WI.

They stand outside No.10  
they stand out in the snow,

they stand up to the dark forces  
and to those who break the code,

they stand beside their husbands  
instead of one step behind,

and pull their daughters forward  
and stand them in the light.
