

What A Gwan? COP 26, 27, 28, 29 (repeat till humanity fade)

When ya see what a gwan up top society wid dis wide world
and ya often time realise with vexation what coming round next
sometime ya see and know what is not gonna 'appen
but things not change fer the people 'pon the bottom of dis heap

them damn fuls at the 'ighest them a circle them own flat ert
but them nah even tek a look down at the likkle people
them not mention we, till bigman fall upon their own back
but things not change fer the people 'pon the bottom of dis heap

Big man mek wide smile while them tek them huge money dividend
while we likkle man a scratch an pull like rooster chicken in a backyard
and pull an scratch an search pon dry ert for the small scrap
but things not change fer the people 'pon the bottom of dis heap.

then we a see all the page a turn fer just them, jus fer them
them sit an ponder on the likklest detail of these foolish COP convention
shout-n-runabout, mek the cymbal crash and some lightning lash
but things not change fer the people 'pon the bottom of dis heap
