

## Storyville Town Planning: Complaints Department

Dear Misters Pig,

I'm forced to write  
to serve you notice on your site.  
As you're aware, this town has rules,  
and yet you take us all for fools.  
That 'bungalow' you've made from straw?  
Unlawful!  
Not *one* fire door!  
And ordinance P1.6  
is *quite* clear when it comes to sticks:

*'The timber should be all one kind,  
and MUST be architect designed'.*

It's frankly just a sty with twigs –  
again – these are *illegal* digs.

And as for building number three –  
the four-floor brick MONSTROSITY –  
we were not shown these plans at all.  
A drawbridge? Moat? A castle wall?!  
It's caused your neighbours much distress.  
We've had complaints, as you might guess:  
The dwarves have called me SEVEN times  
to rant about your grand designs –  
The bears are fuming (no change there)  
Rapunzel claims she's losing hair...

Last warning now – it's quite enough.  
In thirty days, I'll huff and puff  
and blow these dwellings to the ground.

**DO NOT BE IN WHEN I COME ROUND.**

Sincerely,

**B. B. Wolf, esq.**  
**Town Planning Head**
